Who Does Better At School- Girls or Boys?

Recent years' examination results show that girls are doing better than boys at high school. Before, girls used to get better results in languages and history and the boys used to get higher marks in Math and the sciences. Now girls are doing better in all subjects. There are many possible reasons why this has happened.

1. Amanda from Bristol says: "Girls don't just want to get married now. They want to be independent. If you want a good job, you have to work hard at school."

Amanda's friend, Cathy, says: "It's more difficult for women to get good jobs. They have to be twice as good as men to get the same job. We have to work harder."

2. Mrs. Armitage, a chemistry teacher, comments: "Ten years ago students used to get marks only for the examination but now they get marks for their work during the year. I think girls are more constant in their study so they often get higher average marks."

Mr. Evans, a Math teacher, adds: "In my experience, girls are serious about doing their homework, Boys are usually more interested in computer games and football!"

3. Ms. Stephens, a head teacher, says: "The exams have changed too. We used to ask students to remember a lot of facts but now they have to think more and give their own ideas. In general, girls seem to be better at this than boys."

a. Skim the article and match the given main ideas with the 3 columns of people's opinions.

53. (column 1)	a. Work during the year
54. (column 2)	b. The exams
55. (column 3)	c. Girls have to be twice as good
